

How to Embed a YouTube Video in HTML

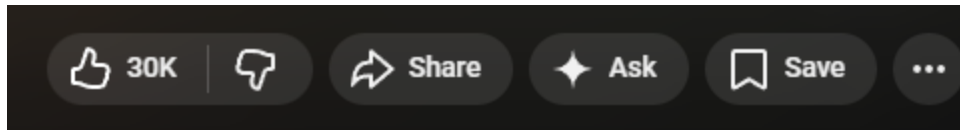

Follow these steps to add a YouTube video to your webpage.

Step 1: Find Your YouTube Video

Go to YouTube and open the video you want to embed.

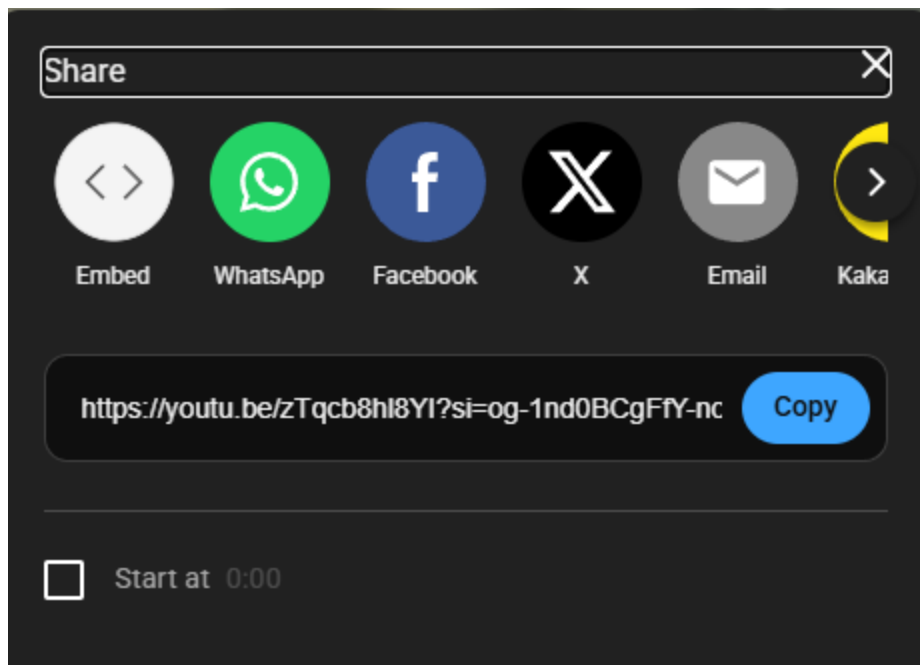

file:///C:/Users/raay/OneDrive/Pictures/Screenshots/video uploading tutorial.html

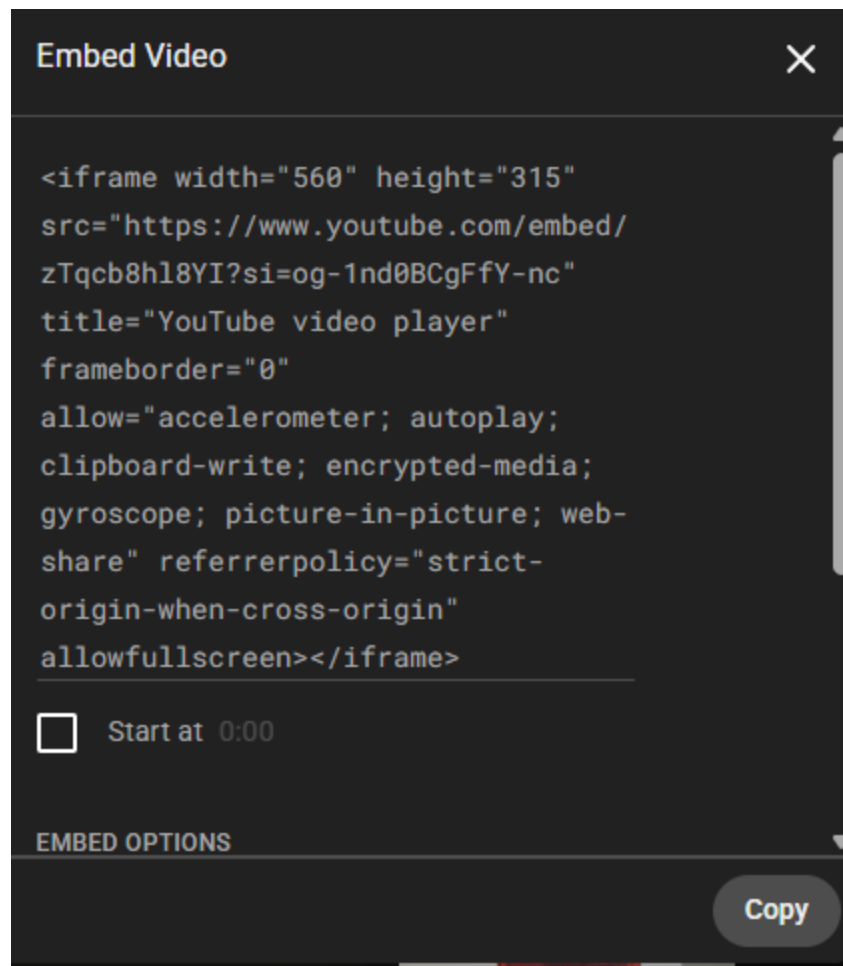

Step 3: Select Embed

In the share options, choose **Embed**. This will show you an `<iframe>` code.

Step 4: Copy the Embed Code

Copy the `<iframe>` code provided by YouTube.

Step 5: Paste into Your HTML File

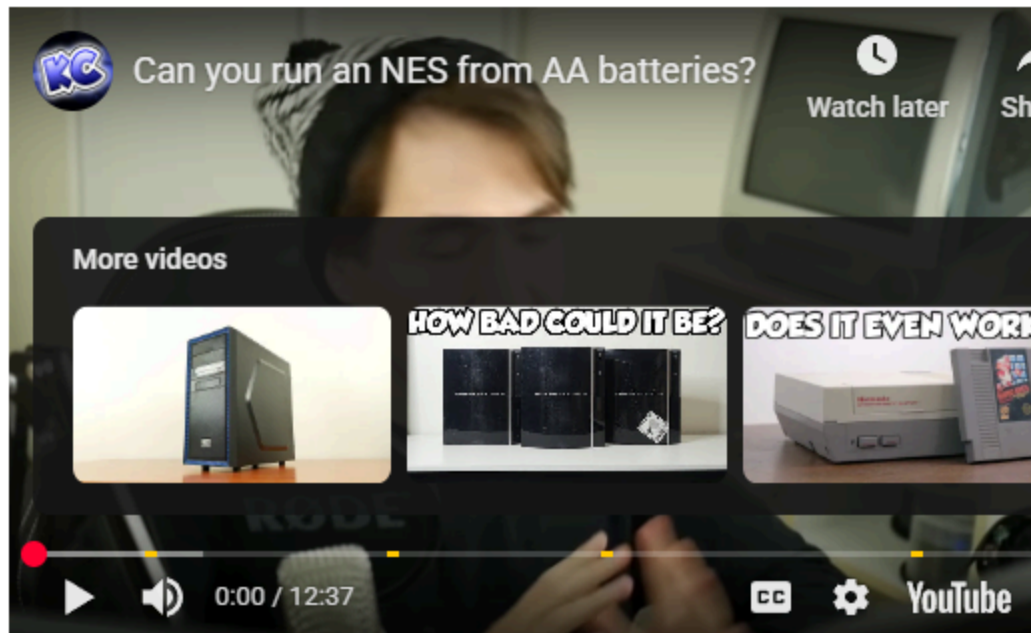

Open your HTML file in a text editor and paste the embed code where you want the video to appear.

```
<!-- Example Video -->
<section class="example">
  <h2>Example Embedded Video</h2>
  <iframe width="560" height="315"
    src="https://www.youtube.com/embed/zTqcb8hl8YI"
    title="YouTube video player"
    frameborder="0"
    allow="accelerometer; autoplay; clipboard-write;
encrypted-media; gyroscope; picture-in-picture"
    allowfullscreen>
  </iframe>
</section>
</main>
```

Step 6: Save and Test

Save your HTML file and open it in a browser. The YouTube video should now be embedded.
